Accessibility Statement

HANTOVIA EDUCATION CIC · Company no. 17587942 · Last updated 23 November 2026

HanTovia Education CIC wants everyone to be able to use this website, including people who use assistive technology, people with low vision, people who cannot use a mouse and people who are sensitive to motion. We aim to meet the **Web Content Accessibility Guidelines (WCAG) 2.2 at level AA**.

1. What you can do on this website

- **Turn motion off.** Use the "Reduce motion" switch in the footer or menu. It stops page animations and 3D movement and is remembered on every page. If your device is set to reduce motion, the website follows that setting automatically.
- **Use a keyboard only.** Every link, button and form control can be reached and used with a keyboard, with a clearly visible focus outline. A "Skip to content" link is the first thing on every page.
- **Zoom in.** Text can be enlarged up to 200% without loss of content, and pages reflow to a single column on small screens and at high zoom.
- **Use a screen reader.** Pages use headings, landmarks and lists correctly. Images that carry meaning have text alternatives, and decorative 3D scenes and illustrations are hidden from assistive technology.
- **Fill in the enquiry form.** It is split into four short steps, every field has a visible label, choices are real radio buttons, and errors are explained in words, listed at the top and linked to the field that needs fixing. Choosing an option with the keyboard never moves you on without warning.
- **Read comfortably.** Text and important controls meet WCAG AA colour contrast. Our policies are also available as downloadable PDFs.

2. How accessible this website is

We believe the website is **largely compliant** with WCAG 2.2 AA. We know of the following limitations:

- The interactive 3D scenes are decorative. They cannot be explored with a screen reader, but all of the information on the page is also available as text.
- Some animated effects respond to the mouse. Nothing on the website depends on them, and they can be switched off with "Reduce motion".
- Our downloadable PDF documents are generated from the web pages and include headings, but they may not be fully tagged for every screen reader. The web version of each document is the most accessible version.

3. Tell us about a problem

If you find a part of this website hard to use, or you need information in a different format, please contact us at hanan@hantoviaeducation.co.uk or call 07751 293699. Tell us the page and the problem. We will reply within 5 working days.

4. How we tested

This website was checked against WCAG 2.2 AA in November 2026 using automated testing (axe-core) on every page, together with manual checks of keyboard navigation, focus order, reduced motion, colour contrast, zoom and reflow, and mobile layouts. We review accessibility whenever we make significant changes to the website.

5. Your rights

Under the Equality Act 2010, organisations providing services must make reasonable adjustments for disabled people. If you are not happy with our response, you can contact the Equality Advisory and Support Service (EASS) at equalityadvisoryservice.com.
